Hello Sean,

Thank you for downloading Spark. Our team has worked really hard for the past four years to create the best email experience for you and your team across all Apple devices. I hope you love the result!

Spark has been the most challenging product we've ever worked on. Here's [the short story](#) of why we created Spark and a few hints about where we are going.

Once again, thank you for trusting Spark with your email.

Regards,

Alex Tyagulsky

Readdle Co-Founder and Spark creator.
